

**Subject: FedMall V22.2.2 Public Release Notes**  
SP4709-17-D-0034/SP4709-20-F-0098

## 1.0 Release Details

FedMall Release V22.2.2 will go live on March 4, 2022. These notes describe all functional changes and how those changes affect the use of FedMall.

### 1.1 Purpose

This document captures the functional release notes describing an update to the FedMall system. Except where otherwise noted, this document describes the availability of new or updated functionality in the Production (“PROD”) environment, i.e., available to the generality of FedMall users.

### 1.2 Release Overview

System	FedMall
Availability Date	March 4, 2022
FedMall Software Version	v22.2.2

### 1.3 Change Request

Change Request	Description	Reference ID
DCSO Auto-Validation	DCSO Auto-Validation provides the capability to compare between a Supplier uploaded catalog and the KO uploaded Gold Standard file. Once a Supplier uploads a catalog and the Comparison Validator has performed a validation check against the Gold Standard file, the system will notify DCSO users/KOs that a catalog is available to review. Within the DCSO Manager UI, a status update of the Comparison Validator is provided stating if errors were found or not, and a Comparison Validator Output file is provided along with an Error Report. This Error Report and Comparison Validator Output file is available through FEDS UI. DCSO users/KOs are then available to access the DCSO Manager UI to approve or reject supplier catalog files.	CHG0031103

### 1.4 Updates to FEDS

This software release includes updates to the following capabilities:

Capability	Description	Reference ID
------------	-------------	--------------

DCSO Automation	<p>DCSO Auto-Validation capability compares the catalog uploaded by a Supplier to the Gold Standard file.</p> <p>The initial capability of DCSO Auto-Validation focuses on the following:</p> <ul style="list-style-type: none"> <li>• DCSO User/KO Gold Standard Upload and User Interface (UI)</li> <li>• Gold Standard File Storage</li> <li>• Gold Standard File Microservices Validation (Format and Header check)</li> <li>• Supplier Catalog and Comparison Output File Storage</li> <li>• Supplier Uploaded Catalog File Queue</li> <li>• Supplier Catalog Upload to Validation Microservice for Comparison</li> <li>• Comparison Validator Application and Microservices</li> <li>• Comparison Validator Error Report</li> <li>• DCSO Manager UI and Notification Alerts</li> <li>• Email Notification Services when no Gold Standard File exists</li> </ul>	CHG0031103
Updated code to ensure the Archive Button functions as intended	<p>In the Contracts Overview Page:</p> <p>Edited the usp_auto_archive_expired_contracts procedure</p> <ul style="list-style-type: none"> <li>• Moved the naturally expiring contracts loop to the top and modified it to only set the status = 'Archiving'</li> <li>• Modified the all-expiring contracts loop to set the archive flag in item-master, move the records to the archive table and delete them from item_master</li> <li>• Clicking Archive now disables the save button at the bottom of the Contracts Overview page.</li> </ul>	CHG0031163

### 1.5 Updates to Supplier Portal

This software release includes updates to the following capabilities:

Capability	Description	Reference ID
Supplier Portal 'status report' updates to display KO's rejection comments.	The Supplier User is able to view rejection comments from the Status Report column when a KO rejects a catalog and adds comments.	CHG0031103

### 1.6 Updates to All FedMall Sites

This software release includes updates to the following capabilities:

Capability	Description	Reference ID
CUI Type FOUO added to All FedMall Pages	<ul style="list-style-type: none"> <li>The C.U.I. is now CUI</li> <li>Unclassified is removed</li> <li>Pages ONLY show CUI on Commerce, Portal, FEDSUI</li> </ul>	CRQ-97851
